WILLIAMS' ADDITION,

South of Creighton avenue, the following streets: Harrison, Webster, Taber and Suttenfield, are 60 feet in width and are "parked," as is customary in many other cities east and west. With the regular six feet walk, nine feet more are taken from the street, fifteen feet on each side, for grass plat and trees. This is called "parking" the street. Which still remains amply wide for carriages and wagons. Where streets are thus "parked" fences are usually considered a superflous expense and the roadway is more easily kept rounded up in good condition for driving.

LOUIS LINGG !

The Bold Bomb Maker Blows Great Holes in His Head With a Fulminating Cap.

Louis Lingg

The News From Governor Oglesby.

CHICAGO, Nov. 10.—9 a. m.—Louis Lingg, the bomb maker, has just committed suicide in his cell in the county jail.

He ended his life by means of a fulminating cap. He held the cap in his mouth and lit it with a candle which was burning in his cell.

The explosion was the first warning the jail people had. The guard saw him with a candle in his hand, but supposed he was lighting a cigar.

From the effects of the explosion he had his head torn away.

Immediately after the explosion Deputy O'Neil rushed into Lingg's cell, which was completely enveloped in smoke. There he found the young anarchist lying on his back, with great holes in his head, from which blood was rushing in torrents. He was at once carried into the jail office and placed on a table. He was still breathing faintly and while Dr. Gray was examining he coughed slightly and blood poured forth again from his terrible wounds, as well as his mouth and nose.

The physician said the man could only live an hour or so at the most and he expects death every minute.

At 10 o'clock he was still alive.

LINGG'S FAREWELL ADDRESS.

10:10 a. m.—All day yesterday it was thought that Lingg acted differently from usual. Tuesday night he gave out his "farewell address," which was written for the *Alarm*, Parson's old paper. In it he recited at length his grievances and closed as follows:

"Now, with a last and earnest farewell to all friends and comrades and with final wishes for their prosperity, I close in view of the certainty that I shall never have a chance of seeing you again. My beloved comrades, with an earnest and hearty wish for your future success in life, your comrade, Hoch Die Anarchie.

[Signed.] "LOUIS LINGG."

TALKS OF HIS SWEETHEART.

Yesterday Lingg asked if his sweetheart, Eda Mueller, had gone to Springfield, and when told that she had, remarked that if he could have seen her he would have told her to stay at home.

A COOL MAN.

O'Neil, one of the two guards who remain on duty before Lingg's cell throughout the day, declared that Lingg was the coolest man in the Cook county jail. He was very pale, but his appetite was good and he slept well.

WHAT THE DOCTORS SAY.

CHICAGO, Nov. 10.—Jailer Folz made an examination of Lingg's cell. On the floor he found a shell of the fulminating cap. The sheriff said there had undoubtedly been dynamite in it. The explosion was terrific. It startled the officials, who thought it was a bomb, the noise was so great. The shell was so small as to have allowed it to be smuggled in without any trouble.

At 10:15 o'clock, Dr. Gray made a further examination and found that the tissues of the throat, neck and front of the jaw had been torn away. He administered stimulants, but they failed to arouse the man.

LINGG MAY LIVE.

The doctor states now that there are faint hopes that Lingg may yet live.

Mr. Grinnell says in case he lives until to-morrow the stay of execution, for him at least, must be granted. Mr. Hunt appeared before Judge Baller at 10 o'clock and made a formal application for a writ of inquiry into Lingg's sanity and it was refused.

A TRAITOR AMONG THE DEATH WATCH.

11 a. m.—Ling is still alive.

It is generally believed there is a traitor among the death watch, who gave him the dynamite and cap. This is the theory at the sheriff's office.

SCENE IN THE CELL.

Captain Black came to the jail at 10 o'clock this morning and went to the room where the doctors were working with Lingg. "Lingg, do you know Captain Black?" asked Deputy Sheriff Morgan. Lingg opened his eyes, looked steadfastly at the captain and nodded his head. The scene in Lingg's cell after the explosion was ghastly, the teeth, bits of his flesh, and blood was scattered all over the narrow compartment. Within fifteen minutes after the explosion, Fischer, Parsons and Engle were taken from their cells and searched in the jailors office. Their clothing was taken from them and new suits were given them. The sherff says that Lingg was stripped and carefully searched yesterday and the day before.

A FRIGHTFUL PICTURE.

CHICAGO, Nov. 10.—At 1 o'clock Lingg's condition was unchanged. He is still conscious and presents a most horrible sight. The lower part of his jaw is completely torn off. His cheeks are torn out and hang down upon his neck. His teeth are knocked out, his gums torn away and but a small stump of his tongue appears protruding from the mangled throat.

The ball of the thumb on the left hand, with which he had touched off the explosive in his mouth, was torn open.

CAN LINGG LIVE.

The physician says that if Lingg can recover from the terrible shock—a very doubtful possibility—he may yet live some days or weeks or even get well entirely, but the chances are but one in a thousand, as blood poisoning is almost sure to follow.

ANOTHER LUNATIC.

CHICAGO, Nov. 10.—O. H. Anderson, a lunatic, while being conveyed to the insane hospital, heard of Lingg's attempt at suicide. He took a razor from his pocket and cut his throat. He will probably die.

Lingg Dying.

3. p. m.—Lingg is fast sinking.

The doctor says he will die before 9 o'clock to-night.

LINGG DEAD!

3:40—Lingg died at 2:50.

NEWS FROM SPRINGFIELD.

SPRINGFIELD, Nov. 10.—Intense excitement prevails here over the all-absorbing anarchist case. The governor is closeted in his office and refuses to see any one. Action of some kind is expected every hour.

A messenger has just hurried to the mansion with the intelligence of Lingg's suicide. The governor is said to have abstained from all expression of horror or surprise at the news.

It is confidently believed here that the governor will to-day commute the sentences of Fielden, Spies and Schwab to imprisonment for life or varying terms, or else grant a temporary respite to all the condemned men.

A letter from August Spies was given the governor this morning, in which he begs the governor not to permit the sevenfold legal murder, but if life must be taken, to let him die instead of the others. He makes this offer in the interest of humanity and progress. He re-asserts his innocence, but says public sentiment is so warped that it seems impossible for the governor to do otherwise than have somebody's blood.

THE GOVERNOR'S DECISION WILL BE GIVEN TO-DAY.

The governor has just informed the Associated Press reporter that he will announce his decision in the anarchist case during the day, intimating that it would be before 6 p. m.

NEW YORK DEMONSTRATION.

NEW YORK, Nov. 10.—The Federated German trades of this city, have arranged for a parade and demonstration to-night as a protest against what they call the contemplated judicial murders in Chicago next Friday. Every drum will be mufiled and every instrument of music draped in black.

ALARMED IN NEW YORK.

Sergius Schevitch, editor of the *Leader*, made application to the police to-day for permission for 10,000 socialists to parade to-night to express their disapproval of the hanging of the Chicago anarchists. Superintendent Murray summoned all the captains and gave them special instructions how to act. All the reserve will be held in readiness for instantaneous service.

A FULMINATING CAP.

[A fulminating cap holds what is termed "fulminating powder," being a compound of sulphur, carbonate of potash and niter. These compounds explode by percussion, friction, or heat and are used to hasten more powerful explosives, such as bombs, torpedoes and the like.]—ED. SENTINEL.

Aluminium Alloys.

Of the alloys of aluminium, the series formed with copper, and known as aluminium bronze, are the most important. The alloy containing 90 per cent. of copper and 10 of aluminium is the most prominent of these, and was discovered as long ago as 1856 by Dr. John Percy. It has a deep golden color, a specific gravity of 7.7, and can be shaped at a red heat and hammered until cold without cracking. The alloys change to white in color when the proportion of aluminium reaches about 20 per cent.—*Arkansaw Traveler.*

LOUISVILLE, Nov. 10.—A few minutes past 3 o'clock this morning, Dr. Wm. G. Ouchterlony, the only son of Dr. J. A. Ouchterlony, committed suicide in his room at the residence of his father. The young man had received a finished education in the medical schools east and the suicide is looked on as the result of a dissipated life.

A NEW RAILROAD.

A Line Projected From Fort Wayne to Terre Haute.

The Indianapolis *News* says: "Articles of incorporation were filed with the secretary of state this morning, of the 'Central Indiana railroad company,' which proposes to build a line from Fort Wayne to Terre Haute, a distance of two hundred miles, through the counties of Allen, Wells, Huntington, Wabash, Grant, Miami, Howard, Carroll, Tippecanoe, Montgomery, Fountain, Park and Clay, The capital stock is given at $100,000, of which Lewis J. Highland has subscribed 986 shares. He and W. C. Wilson, of Lafayette, W. J. Craig, John W. Kern, and D. W. Whitcomb, of this city, constitute the board of directors."

Mr. Craig arrived in the city this morning and said to THE SENTINEL representative that that portion of the line between Lafayette and Kokomo would be constructed at once and next year the extensions would reach Fort Wayne and Terre Haute. Mr. Drew, a prominent St. Louis contractor, has undertaken the work and is well backed financially.

Friends in this city are invited to attend without further notice.

W. H. Lewis, esq., master mechanic of the Nickel Plate, with headquarters at Stony Island, arrived in the city last evening on an inspection tour of the company's works, both here and Bellevue. He is high in his profession and is a scholarly gentleman.

The state board of health continues to receive reports of the general prevalence of typhoid fever throughout the state. The accounts that have been published about it in certain counties are exaggerated, but still there are many cases of the disease in almost every part of the state and many deaths are reported. It seems to be getting worse instead of better. The health officers think that a series of heavy, soaking rains would do more to improve the general health of the state than anything else.

Physicians unite in advising that drinking water, whether from wells or from the water works, be boiled before use. This is looked upon as a reasonable precaution against typoid fever germs. Low water has heretofore been supposed to be pure water, but later conclusions are that low water drains sediment largely, and therefore contains poisonous precipitations. Typhoid is becoming alarmingly prevalent, and the water is supposed to be the cause. All cities are suffering—Indianapolis much less than others. The clouds of dust carry poison also, and rain or sprinkling only will bring relief, The sewers also should be flushed to carry off the stagnant filth.

The lucky owner of ticket 4196 will be presented by Messrs. Sam, Pete & Max, with the valuable city lot, No. 173 Archer's addition, on November 1st, or after. If said number is not presented the lot goes to No. 5953 after January 1st. 28-d&w-eod-tf

HUSTLED 'EM UP!

That's What Our Scribe Tried to Do, But it Was an Awful Big Job on a Dull Day.

The Lake Shore road has issued a new time card.

Nathan Foster has taken a position in the Pittsburg freight office as weight clerk.

George Gordon, the baggagemaster at the Pittsburg depot, went to Chicago this morning.

Martin Gross, the clerk at the Pittsburg freight office, has been transferred from night to day duty.

The Nickel Plate and the Pittsburg are running excursions to Chicago during the continuance of the fat stock show at that city.

Mr. J. J. Fagan has resigned his position in the Wabash service at Decatur, and has accepted a position as stenographer in Mr. Geo. Farrington's office.

Mr. C. Conklin has resigned his position in the Terre Haute and Peoria passenger service, and has resumed his run as passenger conductor on the Wabash.

Freight business is so good on the Nickel Plate that the capacity of the motive power has proved insufficient to move the big trains with the desired promptness.

Opinion is pretty evenly divided among the men in the railroad and manufacturing establishments of the city as to the justice of inflicting the death penalty upon the Chicago anarchists.

The new steel and iron bridge which the Louisville, Evansville and St. Louis road has been building over the Wabash river at Mt. Carmel, was completed Saturday. The bridge is built in five spans and is first-class in every respect.

Mr. E. H. Talbott, editor of the *Railway Age* of Chicago, is having a sort of triumphal tour through Mexico. He has been banquetted by the Mexicans wherever he stopped, and is treated like a royal prince, and all because he is an American and a well-known advocate of the closest relations between the United States and Mexico.

Mr. C. R. Higgins and Mr. O. E. Walton, two of the most valued men in the Pennsylvania company's office in this city are pleasant to newspaper reporters, and are always courteous to THE SENTINEL man when he is seeking information from them. They are the local correspondents for several metropolitan dailies, and their dispatches are always brilliant and interesting.

James Gribben, the foreman of the planing department in the Pittsburg shops, has been in the employ of the company here for over eighteen years. He now has about seventy men in his department during the day and is working nearly the same number at night. He reports that never before in the history of the company's shops has work been so abundant as it has been this summer and is now. This is true of every other department of the company's works in this city, and it shows that the Pittsburg shops are a great and growing industry, and is doing much to advance the city's interests.

IT is stated that a German steamship recently took to Colon from Africa 700 Liberians, men of gigantic stature and powerful physique. They were half-naked, carried queer-looking bundles upon their shoulders, and spoke a language which no one else on the isthmus understood. It is said that 1,500 more will follow, and that these men will work on the Panama Canal.

Two days only.

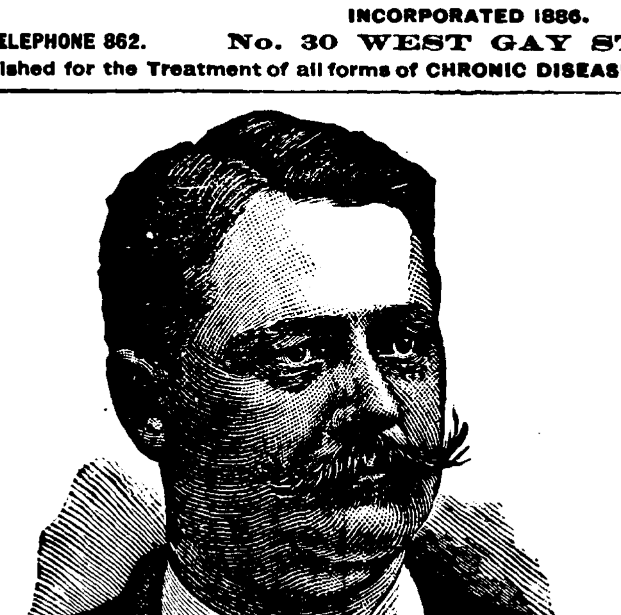
When it is known that Dr. Fruth is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is rememberod that in diagnosing a disease he never asks questions, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. The doctor's diagnostic powers have created wonder throughout the country.

THE FRANCE MEDICAL & SURGICAL INSTITUTE.

INCORPORATED 1886. CAPITAL, $300,000.00.

TELEPHONE 862. No. 30 WEST GAY STREET, COLUMBUS, O. TELEPHONE 862.

Established for the Treatment of all forms of CHRONIC DISEASES, and DISEASES of the EYE and EAR. Also, PRIVATE DISEASES.



D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, Surgeon in Charge.

Dr. **FRANCE,** of New York, the well known Specialist in Chronic Diseases and Diseases of the Eye and Ear, Principal.

DR. FRANCE, of New York, the well known and successful Specialist in Chronic Diseases and Diseases of the Eye and Ear, on account of his large practice in Ohio, has associated himself with D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, who has resigned his position in the Provident Medical Dispensary to take charge of the *France Medical Institute*, where all forms of *Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific Principles.*

A FAIR PROPOSITION.—Intelligent people, the world over, when the reason is appealed to and prejudice is laid aside, can always be relied upon to reach a correct conclusion in any matter that may be presented to them. It is in this way Dr. France, the founder of the France Medical Institute, at No. 30 West Gay street, desires to meet the public, and discuss the manner in which he undertakes to cure chronic diseases. He places his propositions in this wise: Are you accustomed to think and act for yourself? If so, then do not heed the counsel of skeptical and prejudiced friends, or jealous physicians, but listen to what we have to say. You perhaps know nothing of us or our system of treatment, or of the business methods we employ. You may imagine, but you know nothing of our facilities and advantages of perfecting cures in cases beyond the reach or aid of the general practitioner. Knowing nothing, then, of all these advantages, you still know as much as the would-be friend or physician, who never loses an opportunity to traduce and misrepresent us, and prejudice the afflicted against us. We wish to add further that we are responsible and invite you to come and visit our institution; and if you find on investigation that we have mistated or misrepresented in any particular, our institution, our advantages or our success in curing Chronic Diseases, we will gladly bear the expense of your trip. We court honest, sincere investigation, and are glad and anxious to show interested people what we can do and are doing for suffering humanity. Can a proposition be plainer? Can an offer be more fair and business-like? If, therefore, you are afflicted and are seeking relief, come where genuine ability is a ruling feature, where success is our watchword and the alleviation of human suffering our mission.

They adopt the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, ascertain the conditions of the internal organs, examine Eye, Ear and Throat by the most recent and approved instruments and methods, all of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing the changes, they check them with specific remedies, and place the patient on the high road to recovery. When sick people consult them they readily tell them whether they can cure or help them, or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of disease, amount of danger to life, and chance of a perfect cure. Believing that science is truth, and "truth is mighty and will prevail" when known, and knowing that disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astounding success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of diseases by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this State: Eye and Ear Diseases, Chronic Diarrhœa, Chronic Inflammation of the Womb, Chronic Inflammation of the Bladder, Painful or Irregular Menstruation, Fever Sores and Ulcers, Incontinence of Urine, Tape Worms, Crooked Limbs and Enlarged Joints, Spinal Curvatures, Club Foot, Hip Joint Diseases, White Swelling, Discharging Abcesses, Sterility or Barrenness, Nervous and General Debility, Prostration and Impotency, Disease of the Kidneys and Bladder, Leucorrhea or Whites, Blotches and Pimples, Skin Diseases, Dyspepsia, Constipation, Dropsy, Cancer, Epileptic Fits, Erysipelas, Gravel, Goitre, Gleet, Gonnorrhæa, Hydrocele, Heart Disease, Liver Disease, Headache, Piles, Hysteria, Syphillis, St. Vitus Dance, Chronic Dysentery, Enlarged Tonsils, Fever and Ague, Fistula in Ano, Hernia or Rupture, Ovarian Tumors, Paralysis or Palsy, Prolapsus Uteri, Bronchitis, Asthma, Catarrh, Scrofula, Consumption, Chronic Cough, Female Weakness, Spermatorrhœa, Rheumatism, etc.

CURING OF PILES GUARANTEED.—Will give $1,000 for any case of failure. No money required of responsible parties.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DR. FRANCE—After years of experience, has discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color will be a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. No risks incurred. Correspondence promptly answered, and medicines sent free from observation to all parts of the United States.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method.

To Whom it May Concern: We, the undersigned, do cheerfully and conscientiously recommend Drs. France and Fruth as gentlemen of rare professional ability, ripe in judgment, humane to a fault, considerate in price, and enthusiastic for the relief of their fellow men, and we therefore urge the afflicted to avail themselves of their superior skill.

Persons ruined in health by Unlearned Pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail and express, but where possible, personal consultation is preferred. Curable Cases Guaranteed. List of questions sent free. Address, with postage,

Wrong

To imagine that the treatment of Constipation consists merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. This is what Simmons Liver Regulator always does.

"As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels."—W. J. McElroy, Macon, Ga.

Believe us, when we tell you that most of the despondent feeling (the blues) is the effect of a Torpid Liver, Indigestion, Weakness of Stomach, and Nervousness. A dose of Simmons Liver Regulator invariably relieves, cures and prevents a re-occurrence.

"I find Simmons Liver Regulator, very safe, harmless and valuable as a family medicine, and have used it for any disorder of the system and have found it to act like a charm, and I believe that if it was used in time, it would prove a great preventive of sickness. I have often recommended it to my friends, and shall continue to do so."—Rev. James M. Rollins, Fairfield, Va.

Simmons Liver Regulator is given with safety and with the happiest results, in almost any ailment, to the most delicate infant as well as to the adult. For all diseases in which a laxative, alterative, or purgative is needed, it will give the most perfect satisfaction. It is the cheapest, purest and best Family Medicine in the world.

Price $1. Sold by all Druggists. Prepared by J. H. Zeilin & Co., Philadelphia, Pa

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

The breath of a chronic catarrh patient is often so offensive that he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked, and frequently entirely destroyed. A constant source of discomfort is the dripping of the purulent secretions into the throat sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant result which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only cure.

DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years; deserves our utmost sympathy and may depend on getting the most careful, skillful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex: Irregularity of the menses, too free, too scant, or painful, leucorrhea, (whites,) vaginitis, metriti , endometritis, ulcerations, displacements, falling of the womb, anteversion, retroversion, lateroversion, ante and retroflexions, producing constipation, or produced by it; uterine and ovarian tumors, fibroma and sarcoma cysts, cancers of the womb or its appendages, frequent or scanty urination, with burning, smarting or itching tenderness, soreness, bloating and backache, eruptions of the skin, pimples, blotches, brown spots, yellow spots, red spots, greasy, pasty, waxy, or chlorotic appearances, and discolorations of the skin, with blue or dark circles around the eyes. Nature is true: she displays her signs and signals the approach of the grim enemy of life, disease. Look sharply into your mirrors; be not deceived, for these signs and symptoms mean weakness, nervousness, irritability, wakefulness, indigestion, headaches, forgetfullness, partial paralysis, sterrility, melancholly, hysteria, wasting, consumption, catalepsy, St. Vitus dance, fits, derangements, insanity and suicide. Many ladies, especially young ladies, are so timid and excessively modest that they hesitate and put off calling on a physician until they are past curing. Mothers should learn more of their daughter's ailments, banish from their minds a dread of examination, for ladies do not have to tell their complaints to Dr. Manville; no unpleasant questions are asked; no objectionable examinations are made; no painful local treatments are given. In most cases ladies can use our local remedies themselves, where it is needed.

While Dr. Manville was on the Medical Staff of the Woman's Hospital, in New York, he was especially noted for great success in treating all diseases peculiar to women.

For the weak and feeble women, and those not in a condition to rear a family, Dr. Manville's "Germicide and Women's Friend," will prove a blessing indeed. Nearly three thousand ladies have called, or sent for it, and used it successfully. It is the greatest remedy known in Europe or America for "Female Weakness." Call now, before it is TOO LATE.

Extraordinary cases require extraordinary skill and experience.

Health and strength will make you happier and more independent than money. Study your own interests. Delays are dangerous.

Our terms will be made satisfactory to all; charges as moderate as we can in justice to ourselves and patients make them.

Consultation and examination free. Office hours 8 a. m. till 9 p. m. Office parlors at 32 East Wayne street.

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show; and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities, of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication and symptom better than the patient can; and that without asking a question. It is

TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the external, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to thing that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

Positively Miraculous

The most skeptical are convinced and astonished.

Young man, Stop! Look this matter square in the face; THINK, consider what you are doing. Waste no time and money with ignorant or unskillful pretenders, who trifle with you month after month, treating SYMPTOMS only, with Bromide of Potassium compounds that impoverish your blood, deadens your nerves; stupefy your mind and relieve nothing—but your pocket book. Such poisonous drugging

MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures so often given for fits and lost manhood, seldom, if ever, cure fits, but almost always DESTROY MANHOOD and RUIN the MIND. Bromide of Potassium and Gelseminum are the main remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the CAUSE or effect a CURE. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity imagin-

Last night Eugene Sovine and family started from the city for their home, near the Catholic cemetery, traveling in a wagon along the Maysville gravel road. At a point just beyond the powder houses and less than a mile from the city, the team plunged down an embankment fifteen feet high. All the people were thrown out of the wagon and were more or less injured. Mrs. Sovine's right arm was fractured and her wrist dislocated.

Sol Smith Russell is touchy on his age and insists that everybody in his company, save the two soubrettes, is older than he. Mr. Russell married the daughter of William T. Adams an author famous as "Oliver Optic," and expended $20,000 some years ago endeavoring to establish an elegant magazine for children. His home is in Minneapolis, where he owns bank stocks, a costly block, and is president of a big manufacturing concern. He expects soon to retire from the stage.

The Indianapolis *News* says: "Colonel Robertson is in the city. He says that he don't know whether Frank Rawles put that 'sold out by his friends,' in reference to him, in the index of the house journal, through malice, or simply because he was trying to do something that he considered 'smart.' Colonel Robertson, naturally enough, is not disposed to be in a very pleasant frame of mind regarding Rawle's bad break. He and Rawles have not been great admirers of each other for some time."

FOUR O'CLOCK P. M.

LOUIS LINGG !

The Bold Bomb Maker Blows Great Holes in His Head With a Fulminating Cap.

The News From Governor Oglesby.

CHICAGO, Nov. 10.—9 a. m.—Louis Lingg, the bomb maker, has just committed suicide in his cell in the county jail.

He ended his life by means of a fulminating cap. He held the cap in his mouth and lit it with a candle which was burning in his cell.

The explosion was the first warning the jail people had. The guard saw him with a candle in his hand, but supposed he was lighting a cigar.

From the effects of the explosion he had his head torn away.

Immediately after the explosion Deputy O'Neil rushed into Lingg's cell, which was completely enveloped in smoke. There he found the young anarchist lying on his back, with great holes in his head, from which blood was rushing in torrents. He was at once carried into the jail office and placed on a table. He was still breathing faintly and while Dr. Gray was examining he coughed slightly and blood poured forth again from his terrible wounds, as well as his mouth and nose.

The physician said the man could only live an hour or so at the most and he expects death every minute.

At 10 o'clock he was still alive.

LINGG'S FAREWELL ADDRESS.

10:10 a. m.—All day yesterday it was thought that Lingg acted differently from usual. Tuesday night he gave out his "farewell address," which was written for the *Alarm*, Parson's old paper. In it he recited at length his grievances and closed as follows:

"Now, with a last and earnest farewell to all friends and comrades and with final wishes for their prosperity, I close in view of the certainty that I shall never have a chance of seeing you again. My beloved comrades, with an earnest and hearty wish for your future success in life, your comrade, Hoch Die Anarchie.

[Signed.] "LOUIS LINGG."

TALES OF HIS SWEETHEART.

Yesterday Lingg asked if his sweetheart, Eda Mueller, had gone to Springfield, and when told that she had, remarked that if he could have seen her he would have told her to stay at home.

A COOL MAN.

O'Neil, one of the two guards who remain on duty before Lingg's cell throughout the day, declared that Lingg was the coolest man in the Cook county jail. He was very pale, but his appetite was good and he slept well.

WHAT THE DOCTORS SAY.

CHICAGO, Nov. 10.—Jailer Folz made an examination of Lingg's cell. On the floor he found a shell of the fulminating cap. The sheriff said there had undoubtedly been dynamite in it. The explosion was terrific. It startled the officials, who thought it was a bomb, the noise was so great. The shell was so small as to have allowed it to be smuggled in without any trouble.

At 10:15 o'clock, Dr. Gray made a further examination and found that the tissues of the throat, neck and front of the jaw had been torn away. He administered stimulants, but they failed to arouse the man.

LINGG MAY LIVE.

The doctor states now that there are faint hopes that Lingg may yet live.

Mr. Grinnell says in case he lives until to-morrow the stay of execution, for him at least, must be granted. Mr. Hunt appeared before Judge Baller at 10 o'clock and made a formal application for a writ of inquiry into Lingg's sanity and it was refused.

A TRAITOR AMONG THE DEATH WATCH.

11 a. m.—Ling is still alive.

It is generally believed there is a traitor among the death watch, who gave him the dynamite and cap. This is the theory at the sheriff's office.

SCENE IN THE CELL.

Captain Black came to the jail at 10 o'clock this morning and went to the room where the doctors were working with Lingg. "Lingg, do you know Captain Black?" asked Deputy Sheriff Morgan. Lingg opened his eyes, looked steadfastly at the captain and nodded his head. The scene in Lingg's cell after the explosion was ghastly, the teeth, bits of his flesh, and blood was scattered all over the narrow compartment. Within fifteen minutes after the explosion, Fischer, Parsons and Engle were taken from their cells and searched in the jailors office. Their clothing was taken from them and new suits were given them. The sheriff says that Lingg was stripped and carefully searched yesterday and the day before.

A FRIGHTFUL PICTURE.

CHICAGO, Nov. 10.—At 1 o'clock Lingg's condition was unchanged. He is still conscious and presents a most horrible sight. The lower part of his jaw is completely torn off. His cheeks are torn out and hang down upon his neck. His teeth are knocked out, his gums torn away and but a small stump of his tongue appears protruding from the mangled throat.

The ball of the thumb on the left hand, with which he had touched off the explosive in his mouth, was torn open.

CAN LINGG LIVE.

The physician says that if Lingg can recover from the terrible shock—a very doubtful possibility—he may yet live some days or weeks or even get well entirely, but the chances are but one in a thousand, as blood poisoning is almost sure to follow.

ANOTHER LUNATIC.

CHICAGO, Nov. 10.—O. H. Anderson, a lunatic, while being conveyed to the insane hospital, heard of Lingg's attempt at suicide. He took a razor from his pocket and cut his throat. He will probably die.

Lingg Dying.

3. p. m.—Lingg is fast sinking.

The doctor says he will die before 9 o'clock to-night.

LINGG DEAD!

3:40—Lingg died at 2:50.

NEWS FROM SPRINGFIELD.

SPRINGFIELD, Nov. 10.—Intense excitement prevails here over the all-absorbing anarchist case. The governor is closeted in his office and refuses to see any one. Action of some kind is expected every hour.

A messenger has just hurried to the mansion with the intelligence of Lingg's suicide. The governor is said to have abstained from all expression of horror or surprise at the news.

It is confidently believed here that the governor will to-day commute the sentences of Fielden, Spies and Schwab to imprisonment for life or varying terms, or else grant a temporary respite to all the condemned men.

A letter from August Spies was given the governor this morning, in which he begs the governor not to permit the sevenfold legal murder, but if life must be taken, to let him die instead of the others. He makes this offer in the interest of humanity and progress. He re asserts his innocence, but says public sentiment is so warped that it seems impossible for the governor to do otherwise than have somebody's blood.

THE GOVERNOR'S DECISION WILL BE GIVEN TO-DAY.

The governor has just informed the Associated Press reporter that he will announce his decision in the anarchist case during the day, intimating that it would be before 6 p. m.

NEW YORK DEMONSTRATION.

NEW YORK, Nov. 10.—The Federated German trades of this city, have arranged for a parade and demonstration to-night as a protest against what they call the contemplated judicial murders in Chicago next Friday. Every drum will be muffled and every instrument of music draped in black.

ALARMED IN NEW YORK.

Sergius Schevitch, editor of the *Leader*, made application to the police to-day for permission for 10,000 socialists to parade to-night to express their disapproval of the hanging of the Chicago anarchists. Superintendent Murray summoned all the captains and gave them special instructions how to act. All the reserve will be held in readiness for instantaneous service.

A FULMINATING CAP.

[A fulminating cap holds what is termed "fulminating powder," being a compound of sulphur, carbonate of potash and niter. These compounds explode by percussion, friction, or heat and are used to hasten more powerful explosives, such as bombs, torpedoes and the like.]—ED. SENTINEL.

THE CROWN PRINCE.

The Condition of the German Crown Prince is Pronounced Critical—He Returns to Berlin To-morrow.

LONDON, Nov. 10.—Dispatches received this morning concerning the condition of the German crown prince say that it is critical. He will return to Berlin Friday when another operation will be performed on his throat.

Aluminium Alloys.

Of the alloys of aluminium, the series formed with copper, and known as aluminium bronze, are the most important. The alloy containing 90 per cent. of copper and 10 of aluminium is the most prominent of these, and was discovered as long ago as 1856 by Dr. John Percy. It has a deep golden color, a specific gravity of 7.7, and can be shaped at a red heat and hammered until cold without cracking. The alloys change to white in color when the proportion of aluminium reaches about 20 per cent.—*Arkansaw Traveler.*

WHISKY'S WORK!

The Cultured Son of a Prominent Physician at Louisville, Puts an End to His Life.

LOUISVILLE, Nov. 10.—A few minutes past 3 o'clock this morning, Dr. Wm. G. Ouchterlony, the only son of Dr. J. A. Ouchterlony, committed suicide in his room at the residence of his father. The young man had received a finished education in the medical schools east and the suicide is looked on as the result of a dissipated life.

A NEW RAILROAD.

A Line Projected From Fort Wayne to Terre Haute.

The Indianapolis *News* says: "Articles of incorporation were filed with the secretary of state this morning, of the 'Central Indiana railroad company,' which propose to build a line from Fort Wayne to Terre Haute, a distance of two hundred miles, through the counties of Allen, Wells, Huntington, Wabash, Grant, Miami, Howard, Carroll, Tippecanoe, Montgomery, Fountain, Park and Clay. The capital stock is given at $100,000, of which Lewis J. Highland has subscribed 986 shares. He and W. C. Wilson, of Lafayette, W. J. Craig, John W. Kern, and D. W. Whitcomb, of this city, constitute the board of directors."

Mr. Craig arrived in the city this morning and said to THE SENTINEL representative that that portion of the line between Lafayette and Kokomo would be constructed at once and next year the extensions would reach Fort Wayne and Terre Haute. Mr. Drew, a prominent St. Louis contractor, has undertaken the work and is well backed financially.

LOCAL BRIEFS.

Herman Felsenthal et al. sue E. J. Smith et al. Marshall & McNagny are attorneys for the claimants.

Mrs. Mercy Gall, of Cicero, O., is in the city, the guest of her niece, Mrs. Geo. R. Hench, at 383 East Wayne street.

Hon. W. J. Craig, editor and proprietor of the Indianapolis *Sentinel*, is in the city. Mr. Craig has warm friends all over the state.

Engineer Baughman, who was hurt in the Nickel Plate wreck, is getting along nicely. He is able to recognize his family and friends.

A plat of the Randall farm, in Washington township, has been filed with Recorder Heller. The property is divided into two and up to eight acre lots.

The advance sale of seats for "Keep it Dark," at the Academy to-night, has been exceedingly active. The show is one of the best on the road and, with such clever people as W. T. Bryant and Lizzie Richmond, should be well patronized.

Yesterday evening at Sheldon occurred the death of Gracie W., son of Dr. Wm. D. and Mary L. Ruhl, aged three years. The sympathy of the entire community is extended to the parents and friends in this sad bereavement. The funeral will take place at Hoagland cemetery to-morrow morning, Nov. 11, at 11 o'clock. Friends in this city are invited to attend without further notice.

W. H. Lewis, esq., master mechanic of the Nickel Plate, with headquarters at Stony Island, arrived in the city last evening on an inspection tour of the company's works, both here and Bellevue. During his stay here he was the guest of the company's physician, Dr. J. M. Dinnen. Mr. Lewis left this afternoon for Bellevue and Cleveland. He is high in his profession and is a scholarly gentleman.

The state board of health continues to receive reports of the general prevalence of typhoid fever throughout the state. The accounts that have been published about it in certain counties are exaggerated, but still there are many cases of the disease in almost every part of the state and many deaths are reported. It seems to be getting worse instead of better. The health officers think that a series of heavy, soaking rains would do more to improve the general health of the state than anything else.

Physicians unite in advising that drinking water, whether from wells or from the water works, be boiled before use. This is looked upon as a reasonable precaution against typoid fever germs. Low water has heretofore been supposed to be pure water, but later conclusions are that low water drains sediment largely, and therefore contains poisonous precipitations. Typhoid is becoming alarmingly prevalent, and the water is supposed to be the cause. All cities are suffering—Indianapolis much less than others. The clouds of dust carry poison also, and rain or sprinkling only will bring relief. The sewers also should be finished to carry off the stagnant filth.

The lucky owner of ticket 4196 will be presented by Messrs. Sam, Pete & Max, with the valuable city lot, No. 173 Archer's addition, on November 1st, or after. If said number is not presented the lot goes to No. 6953 after January 1st. 2-d&w-eod-tf

HUSTLED 'EM UP!

That's What Our Scribe Tried to Do, But It Was an Awful Big Job on a Dull Day.

The Lake Shore road has issued a new time card.

Nathan Foster has taken a position in the Pittsburg freight office as weight clerk.

George Gordon, the baggagemaster at the Pittsburg depot, went to Chicago this morning.

Martin Grose, the clerk at the Pittsburg freight office, has been transferred from night to day duty.

The Nickel Plate and the Pittsburg are running excursions to Chicago during the continuance of the fat stock show at that city.

Mr. J. J. Fagan has resigned his position in the Wabash service at Decatur, and has accepted a position as stenographer in Mr. Geo. Farrington's office.

Mr. C. Conklin has resigned his position in the Terre Haute and Peoria passenger service, and has resumed his run as passenger conductor on the Wabash.

Freight business is so good on the Nickel Plate that the capacity of the motive power has proved insufficient to move the big trains with the desired promptness.

Opinion is pretty evenly divided among the men in the railroad and manufacturing establishments of the city as to the justice of inflicting the death penalty upon the Chicago anarchists.

The new steel and iron bridge which the Louisville, Evansville and St. Louis road has been building over the Wabash river at Mt. Carmel, was completed Saturday. The bridge is built in five spans and is first-class in every respect.

Mr. E. H. Talbott, editor of the *Railway Age* of Chicago, is having a sort of triumphal tour through Mexico. He has been banquetted by the Mexicans wherever he stopped, and is treated like a royal prince, and all because he is an American and a well-known advocate of the closest relations between the United States and Mexico.

Mr. C. R. Higgins and Mr. O. E. Walton, two of the most valued men in the Pennsylvania company's office in this city are pleasant to newspaper reporters, and are always courteous to THE SENTINEL man when he is seeking information from them. They are the local correspondents for several metropolitan dailies, and their dispatches are always brilliant and interesting.

James Gribben, the foreman of the planing department in the Pittsburg shops, has been in the employ of the company here for over eighteen years. He now has about seventy men in his department during the day and is working nearly the same number at night. He reports that never before in the history of the company's shops has work been so abundant as it has been this summer and is now. This is true of every other department of the company's works in this city, and it shows that the Pittsburg shops are a great and growing industry, and is doing much to advance the city's interests.

It is stated that a German steamship recently took to Colon from Africa 700 Liberians, men of gigantic stature and powerful physique. They were half-naked, carried queer-looking bundles upon their shoulders, and spoke a language which no one else on the isthmus understood. It is said that 1,500 more will follow, and that these men will work on the Panama Canal.

Biliousness.

We have tested its virtues, personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw. We tried forty other remedies before Simmons Liver Regulator, but none of them gave us more than temporary relief; the Regulator not only relieved but cured us.—H. H. Jones, Ed. Telegraph and Messenger, Macon, Ga.

AN editorial writer employs "the sword of Damocles" so often that the exasperated compositor cries, "D—nocles!"—*Texas Siftings.*

Its Delicacy of Flavor

And the efficacy of its action have rendered the famous California liquid fruit remedy, Syrup of Figs, immensely popular. It cleanses and tones up the clogged and feverish system, and dispels Headaches and Colds, and Fevers. Large bottles for sale by Thieme and Gross.

WEAK carbolic acid solution sponged over skin and hair is said to drive away any and all insects.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

Scott's Emulsion of Pure Cod Liver Oil, with Hypophosphites is unequalled. The rapidity with which children gain flesh and strength upon it is very wonderful. DR. FRUTH, OF NEW YORK,

—:o:—

The Celebrated German Specialist in Chronic Diseases and Diseases of the Eye and Ear, also Surgeon in Charge of the France Medical and Surgical Institute, of Columbus, O., by request of many friends and patients, will make a return visit to Fort Wayne, Ind., Tuesday, and Wednesday November 15 and 16. Consultation and examination free and confidential at his Parlors at the Robinson House from 9 a. m. to 9 p. m. Two days only.

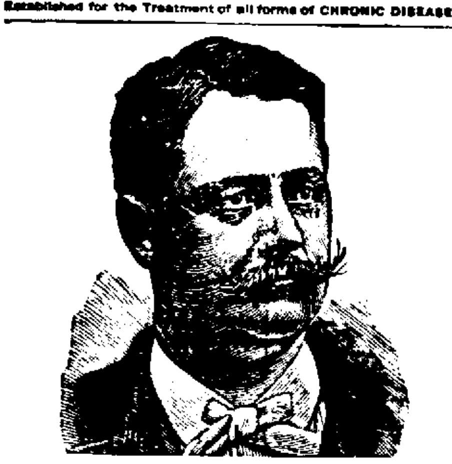
When it is known that Dr. Fruth is stopping at a place, crowds gather to consult him, and it is not to be wondered at when it is remembered that in diagnosing a disease he never asks questions, but describes the different diseases better than the sick can themselves. It is a wonderful gift for any one to possess. The doctor's diagnostic powers have created wonder throughout the country.

THE FRANCE MEDICAL & SURGICAL INSTITUTE.

INCORPORATED 1886. CAPITAL, $200,000.00.

TELEPHONE 862. No. 30 WEST GAY STREET, COLUMBUS, O. TELEPHONE 862.

Established for the Treatment of all forms of CHRONIC DISEASES, and DISEASES of the EYE and EAR. Also, PRIVATE DISEASES.



D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, Surgeon in Charge.

Dr. FRANCE, of New York, the well known Specialist in Chronic Diseases and Diseases of the Eye and Ear, Principal.

DR. FRANCE, of New York, the well known and successful Specialist in Chronic Diseases and Diseases of the Eye and Ear, on account of his large practice in Ohio, has associated himself with D. OTHO FRUTH, M. D., the celebrated German Specialist, of New York, who has resigned his position in the Provident Medical Dispensary to take charge of the *France Medical Institute,* where all forms of *Chronic, Nervous and Private Diseases will be successfully treated on the most Scientific Principles.*

A FAIR PROPOSITION.—Intelligent people, the world over, when the reason is appealed to and prejudice is laid aside, can always be relied upon to reach a correct conclusion in any matter that may be presented to them. It is in this way Dr. France, the founder of the France Medical Institute, at No. 30 West Gay street, desires to meet the public, and discuss the manner in which he undertakes to cure chronic diseases. He places his propositions in this wise: Are you accustomed to think and act for yourself? If so, then do not heed the counsel of skeptical and prejudiced friends, or jealous physicians, but listen to what we have to say. You perhaps know nothing of us or our system of treatment, or of the business methods we employ. You may imagine, but you know nothing of our facilities and advantages of perfecting cures in cases beyond the reach or skill of the general practitioner. Knowing nothing, then of all these advantages, you still know as much as the would be friend or physician, who never loses an opportunity to traduce and misrepresent us, and prejudice the afflicted against us. We wish to add further that we are responsible and invite you to come and visit our institution; and if you find on investigation that we have misstated or misrepresented in any particular, our institution, our advantages or our success in curing Chronic Diseases, we will gladly bear the expense of your trip. We court honest, sincere investigation, and are glad and anxious to show interested people what we can do and are doing for suffering humanity. Can a proposition be plainer? Can an offer be more fair and business-like? If, therefore, you are afflicted and are seeking relief, come where genuine ability is a ruling feature, where success is our watchword and the alleviation of human suffering our mission.

They adopt the following plan, which is peculiar to the large hospitals, and is not and never has been the practice of country doctors, viz: They carefully note the symptoms of the patient, ascertain the conditions of the internal organs, examine Eye, Ear and Throat by the most recent and approved instruments and methods, all of which they carefully record in their register for future reference. In this way they ascertain the true nature of the disease and its cause. Knowing the disease, they know the changes it produces in the tissues, and, knowing the changes, they check them with specific remedies, and place the patient on the high road to recovery. When sick people consult them they readily tell them whether they can cure or help them, or if they are beyond hope.

The examinations are in accordance with anatomical and physical science, and they will convince the most skeptical. By an examination they will convince any one of the nature and extent of disease, amount of danger to life, and chance of a perfect cure. Believing that science is truth, and "truth is mighty and will prevail" when known, and knowing that disease can be cured, with positive certainty, they invite the afflicted to call and receive advice free and be cured of their diseases.

There is no subject that requires so much study and experience as the treatment and cure of Chronic Diseases. The astounding success and remarkable cures performed by them are due to the long study of the constitution of man, and the cure of diseases by natural remedies. Let those given up by others call for examination. They have successfully treated the following diseases since their arrival in this State: Eye and Ear Diseases, Chronic Diarrhœa, Chronic Inflammation of the Womb, Chronic Inflammation of the Bladder, Painful or Irregular Menstruation, Fever Sores and Ulcers, Incontinence of Urine, Tape Worms, Crooked Limbs and Enlarged Joints, Spinal Curvatures, Club Foot, Hip Joint Diseases, White Swelling, Discharging Abscesses, Sterility or Barrenness, Nervous and General Debility, Prostration and Impotency, Disease of the Kidneys and Bladder, Leucorrhea or Whites, Blotches and Pimples, Skin Diseases, Dyspepsia, Constipation, Dropsy, Cancer, Epileptic Fits, Erysipelas, Gravel, Goitre, Gleet, Gonnorrhœa, Hydrocele, Heart Disease, Liver Disease, Headache, Piles, Hysteria, Syphilis, St. Vitus Dance, Chronic Dysentery, Enlarged Tonsils, Fever and Ague, Fistula in Ano, Hernia or Rupture, Ovarian Tumors, Paralysis or Palsy, Prolapsus Uteri, Bronchitis, Asthma, Catarrh, Scrofula, Consumption, Chronic Cough, Female Weakness, Spermatorrhœa, Rheumatism, etc.

CURING OF PILES GUARANTEED.—Will give $1,000 for any case of failure. No money required of responsible parties.

YOUNG MEN—Who have become victims of solitary vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, may call with confidence.

DR. FRANCE—After years of experience, has discovered the greatest cure known for weakness in the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, palpitation of the heart, timidity, trembling, dimness of sight, or giddiness, diseases of the head, throat, nose or skin, affections of the liver, lungs, stomach, or bowels—those terrible disorders arising from the solitary vice of youth—and secret practices, blighting their most radiant hopes or anticipations, rendering marriage impossible. Take one candid thought before it is too late. A week or month may place your case beyond the reach of hope. My method of treatment will speedily and permanently cure the most obstinate case and absolutely restore perfect manhood.

TO MIDDLE-AGED MEN.—There are many from the age of 30 to 60 who are troubled with frequent evacuations of the bladder, often accompanied by a slight burning or smarting sensation, weakening the system in a manner the patient cannot account for. On examination of the urinary deposits a ropy sediment will be found, and sometimes small particles of albumen will appear, or the color will be a thin or milkish hue, again changing to a dark or torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is a second stage of seminal weakness. We will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

PRIVATE DISEASES—Blood Poison, Venereal Taint, Gleet, Stricture, Seminal Emissions, Loss of Sexual Power, Weakness of Sexual Organs, Want of Desire in Male or Female, whether from imprudent habits of youth or sexual habits of mature years, or any cause that debilitates the sexual functions, speedily and permanently cured. Consultation free and strictly confidential. Absolute cures guaranteed. No risks incurred. Correspondence promptly answered, and medicines sent free from observation to all parts of the United States.

DISEASES OF WOMEN.—We have a special department, thoroughly organized, and devoted exclusively to the treatment of diseases of women. Every case consulting our specialist, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not baffled the skill of all the home physicians) have the benefit of a full council of skilled specialists. In treatment of diseases peculiar to females, our success has been marked, over two-thirds of our patients being ladies, old, young, married, single, rich and poor. Our method is entirely free from objectionable features of the general practitioner, namely, "Local treatment." We seldom find it necessary. We prepare remedies, constitutional and local, as the case demands, and instruct ladies how to treat themselves.

EPILEPSY, OR FITS—Positively cured by a new and never-failing method.

To Whom it May Concern.—We, the undersigned, do cheerfully and conscientiously recommend Drs. France and Fruth as gentlemen of rare professional ability, ripe in judgment, humane to a fault, considerate in price, and enthusiastic for the relief of their fellow men, and we therefore urge the afflicted to avail themselves of their superior skill.

FREE EXAMINATION OF THE URINE.—Each person applying for medical treatment should send or bring from 2 to 4 ounces of urine, which will receive a careful chemical and microscopical examination. Persons ruined in health by Unlearned Pretenders, who keep trifling with them month after month, giving poisonous and injurious compounds, should apply immediately.

WONDERFUL CURES Perfected in old cases which have been neglected or unskillfully treated. No experiments or failures. Parties treated by mail and express, but where possible, personal consultation is preferred. Curable Cases Guaranteed. List of questions sent free. Address, with postage,

Wrong

To imagine that the treatment of Constipation consists merely in unloading the bowels. The medicine must not only act as a purgative, but be a tonic as well, and not produce after its use greater costiveness. This is what Simmons Liver Regulator always does.

"As a general family remedy for Dyspepsia, Torpid Liver, Constipation, etc., I hardly ever use anything else, and have never been disappointed in the effect produced; it seems to be almost a perfect cure for all diseases of the Stomach and Bowels."—W. J. McELROY, Macon, Ga.

Believe us, when we tell you that most of the despondent feeling (the blues) is the effect of a Torpid Liver, Indigestion, Weakness of Stomach, and Nervousness. A dose of Simmons Liver Regulator invariably relieves, cures and prevents a re-occurrence.

"I find Simmons Liver Regulator, very safe, harmless and valuable as a family medicine, and have used it for any disorder of the system and have found it to act like a charm, and I believe that if it was used in time, it would prove a great preventive of sickness. I have often recommended it to my friends, and shall continue to do so."—Rev. JAMES M. ROLLINS, Fairfield, Va.

Simmons Liver Regulator is given with safety and with the happiest results, in almost any ailment, to the most delicate infant as well as to the adult. For all diseases in which a laxative, alterative, or purgative is needed, it will give the most perfect satisfaction. It is the cheapest, purest and best Family Medicine in the world.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect specific for woman's peculiar ailments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, hysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Favorite Prescription is a legitimate medicine, carefully compounded by an experienced and skillful physician, and adapted to woman's delicate organization. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness, or nausea, from whatever cause arising, weak stomach, indigestion, dyspepsia and kindred symptoms, its use, in small doses, will prove very beneficial.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus, or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, accompanied with "internal heat."

As a regulator and promoter of functional action, at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent, and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"Favorite Prescription," when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Purgative Pellets (Little Liver Pills), cures Liver, Kidney and Bladder diseases. Their combined use also removes blood taints, and abolishes cancerous and scrofulous humors from the system.

"Favorite Prescription" is the only medicine for women, sold by druggists, **under a positive guarantee,** from the manufacturers, that it will give satisfaction in every case, or money will be refunded. This guarantee has been printed on the bottle-wrapper, and faithfully carried out for many years.

Large bottles (100 doses) **$1.00, or six bottles for $5.00.**

The breath of a chronic catarrh patient is often so offensive that he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked, and frequently entirely destroyed. A constant source of discomfort is the dripping of the purulent secretions into the throat sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant result which have attended its use for years past properly designate Ely's Cream Balm as by far the best and only cure.

DISEASES OF WOMEN.

Every maid, wife and mother who has dragged an aching back and head through weary years; deserves our utmost sympathy and may depend on getting the most careful, skillful and successful medical treatment that can be given. Twenty years study and practice in diseases of women, both in Europe and America, has convinced me that eight out of ten American women suffer from some of the following complaints peculiar to the sex: Irregularity of the menses, too free, too scant, or painful, leucorrhea, (whites,) vaginitis, metritis, endometritis, ulcerations, displacements, falling of the womb, anteversion, retroversion, lateroversion, ante and retroflexions, producing constipation, or produced by it; uterine and ovarian tumors, fibroma and sarcoma cysts, cancers of the womb or its appendages, frequent or scanty urination, with burning, smarting or itching tenderness, soreness, bloating and backache, eruptions of the skin, pimples, blotches, brown spots, yellow spots, red spots, greasy, pasty, waxy, or chlorotic appearances, and discolorations of the skin, with blue or dark circles around the eyes. Nature is true; she displays her signs and signals the approach of the grim enemy of life, disease. Look sharply into your mirrors; be not deceived, for these signs and symptoms mean weakness, nervousness, irritability, wakefulness, indigestion, headaches, forgetfulness, partial paralysis, sterility, melancholy, hysteria, wasting, consumption, catalepsy, St. Vitus dance, fits, derangements, insanity and suicide. Many ladies, especially young ladies, are so timid and excessively modest that they hesitate and put off calling on a physician until they are past curing. Mothers should learn more of their daughter's ailments, banish from their minds a dread of examination, for ladies do not have to tell their complaints to Dr. Manville; no unpleasant questions are asked; no objectionable examinations are made; no painful local treatments are given. In most cases ladies can use our local remedies themselves, where it is needed.

While Dr. Manville was on the Medical Staff of the Woman's Hospital, in New York, he was especially noted for great success in treating all diseases peculiar to women.

For the weak and feeble women, and those not in a condition to rear a family. Dr. Manville's "Germicide and Women's Friend," will prove a blessing indeed. Nearly three thousand ladies have called, or sent for it, and used it successfully. It is the greatest remedy known in Europe or America for "Female Weakness." Call now, before it is TOO LATE.

Extraordinary cases require extraordinary skill and experience.

Health and strength will make you happier and more independent than money. Study your own interests. Delays are dangerous.

Our terms will be made satisfactory to all; charges as moderate as we can in justice to ourselves and patients make them.

Consultation and examination free. Office hours 8 a. m. till 9 p. m. Office parlors at 32 East Wayne street.

The Doctor is a graduate of three different Medical Colleges, both European and American, as his Diplomas will show; and he has been highly honored by other Colleges and Universities as well.

His Reputation is International. He has practiced nearly a quarter of a century. He treats all diseases of the Eye and Ear, all Specific, Nervous, Chronic Diseases and Deformities, of men, women and children, and the Opium and Morphine habit. Dr. Manville diagnoses diseases by an entirely different method from that pursued by ordinary physicians and specialists. He never asks a patient his disease, but by a peculiar method reads and tells every disease, complication, and symptom better than the patient can, and that without asking a question. It is

TRULY ASTONISHING!

Even physicians wonder at it and take critical cases to him for a final decision. The great question with them is: How Does He Do It? The internal parts of a patient seem to be as clear and plain to him as the external, but just how he obtains such a marvelous knowledge of his patient's condition, no one seems to understand, or be able to describe. That he does it in every case, no one doubts. Some seem to think that the Doctor is gifted with supernatural powers; that no ordinary man could give such remarkable descriptions of strangers as he does. Be that as it may, this curious feature of his practice alone, is bringing him thousands of grateful patients; many of whom declare that his wonderful diagnostic skill and power in performing cures is

Positively Miraculous

The most skeptical are convinced and astonished.

Sufferers from Nervous Debility and Blood Diseases and complaints of either sex, requiring Special Treatment, cured in a few days or weeks, without interfering with their work.

HUNDREDS OF MEN.

are afflicted with Seminal Weakness, Spermatorrhea, and Impotency, brought on by various causes, such as venereal excesses and diseases, occupations requiring a straining and stooping position, and especially the unnatural abuses of the sexual functions, the SOLITARY HABIT so often indulged in youth without knowing the terrible results.

Young man, Stop! Look this matter square in the face; think, consider what you are doing. Waste no time and money with ignorant or unskillful pretenders, who trifle with you month after month, treating symptoms only, with Bromide of Potassium compounds that impoverish your blood, destroy your nerves; stupefy your mind and do leave nothing—but your pocket book. Such poisonous drugging

MAKES YOU WORSE.

We can prove by hundreds of cases on record that bromide mixtures so often given for fits and lost manhood, seldom, if ever, cure fits, but almost always DESTROY MANHOOD AND RUIN THE MIND. Bromide of Potassium and Gelsemium are the main remedies used. Given for seminal weakness &c., to control SYMPTOMS while you take them. They never touch the CAUSE or effect a cure. The unhappy victim goes on from bad to worse, reaching at last the most deplorable and horrible condition of humanity imagin-

The critics hereabouts are still talking of Miss Laura Bellini, the star of the Conreid company. The lady can stand this talk as her musical education is one of the finest. At the conservatory at Milan she had the advantages of such teachers as Lamperti Don Gronauri and others. Mr. Strauss wrote the waltz song for her and rearranged the finales of the first two acts of the "Gypsy Baron" at her wish.

Sol Smith Russell and party came to this city from Logansport. Mr. Russell will be seen at the Temple to-night in his new play, "Bewitched." The plot treats of an enchanted amulet brought from India, which causes every one who touches it to do exactly what they do not want to do. Mr. Russell takes the part of a good young man, and in the course of time gets an amulet in his shoe. No one can describe the fun that follows.

Hon. John H. Ridgeley, of Tiffin, O., a brother-in-law of Rev. T. J. Bacher, of this city, was elected common pleas judge of his district in Ohio on Tuesday. He says that he don't know whether Frank Rawles put that 'sold out by his friends,' in reference to him, in the index of the house journal, through malice, or simply because he was trying to do something that he considered 'smart.' Colonel Robertson, naturally enough, is not disposed to be in a very pleasant frame of mind regarding Rawle's bad break. He and Rawles have not been great admirers of each other for some time."
